

# CLASSICAL AND QUANTUM SUPERINTEGRABILITY WITH APPLICATIONS

Invia  
richiesta

## Classical and Quantum Superintegrability with Applications

- 2.1 Introduction
- 2.2 Background and Definitions
- 2.3 Important Examples
- 2.4 Second-order systems
- 2.5 Higher-order determining equations on Euclidean space 48
- 2.6 Higher order classical superintegrable systems
- 2.7 Higher order quantum superintegrable systems
- 2.8 Generalized Stäckel transform
- 2.9 Polynomial algebras and their irreducible representations
- 2.10 Conclusions
